Coronavirus (COVID-19) Update

Dear Resident / Representative:

This letter is to provide you with an update on the status of the Veterans Home's efforts to prevent the spread of the coronavirus. The safety and wellbeing of all residents is our top priority. The Infection Prevention and Control Committee continues to meet as necessary to review new guidance and work closely with the county, regional, and state health department contacts.

Currently, there are no coronavirus positive residents in the facility. A total of ninety-two residents have tested positive since testing started. We are currently conducting facility-wide resident testing every 3-7 days until there are 14 consecutive days of no positive resident or employee test results. Residents with symptoms will continue to be tested for the coronavirus, as well as those residents who must be tested prior to a hospital appointment or procedure. Further, as we are in the annual influenza season, residents will also be tested for influenza as needed,

Since our last letter, three employees have tested positive for the virus. One hundred thirty-one (131) employees have now tested positive since testing became readily available. We continue to test staff at least every 7 days, similar to residents, in accordance with state and federal requirements.

Accordingly, the residential units are on quarantine with a higher level of precautions. These precautions include requiring residents to remain on the unit, and in their rooms whenever possible.

Any positive case of a resident or employee requires the immediate halt of visits, including face-to-face visits. There has been an increase of positive cases in the community; we will continue to monitor the COVID hot zone website as this will impact visitation as well. We are hopeful that face-to-face visits will resume as soon as possible barring any new positive COVID-19 test results. As we get closer to the date for resuming face-to-face visits, you will be notified in writing.

We encourage you to communicate with your loved one via virtual methods such as FaceTime. Please call ahead and speak with the Recreation Department at (914) 788-6175 / 6056. All visits must be confirmed by the staff prior to visitation.

Lastly, I would like to thank our residents and you and your families for your understanding during these most difficult times. Please let us know if you have any questions or concerns.

Be well and stay safe!

Sincerely,

Nancy Baa-Danso
