New York State
Medicaid Managed Care
Pharmacy Benefit Information Website

Over the last few years, The New York State Department of Health (NYSDOH) in partnership with the State University of New York at Stony Brook have developed the New York State Medicaid Managed Care Pharmacy Benefit Information Website. This website provides important information about the Medicaid Managed Care organizations and their formulary drug coverage.

The **homepage** lists all the Medicaid Managed Care plans. From this page the user can link to a specific plans pharmacy benefit information, prior authorization form and other important information such as how the plan is handling the recent and ongoing behavioral health transition. In addition there is a banner that runs across the top of this page which highlights the latest additions to the website or important information about Medicaid Managed Care.

From the **drug look-up** page the user can search for a specific drug and find coverage by plan or select a therapeutic class list from the *Mental Health Quick list* or *Therapeutic Classes, Other* tab. Under these tabs the user will find specific therapeutic class lists such as second generation antipsychotics and anticonvulsants that will show coverage within the class by plan.

The **FAQ** page provides additional information about formulary coverage and Medicaid Managed Care.

The newest addition to the website is the <u>**Contact us**</u> page. This page includes contact information for the Medicaid Helpline, helpful links to the Medicaid program as well as an email contact feature that allows users to email NYSDOH feedback, comments or suggestions about the website.
