DETERMINATION  
AND  
ORDER

BPMC-21-190

The Respondent Anand Pandya holds a license as a Physician in New York State (License), in addition to holding a medical license formerly in California. Following the Respondent's Stipulated Surrender of his license in California, a duly designated Committee from the State Board for Professional Medical Conduct conducted a hearing pursuant to New York Public Health Law (PHL) § 230(10)(p), to determine if the Respondent's misconduct in California amounted to misconduct in New York and warranted a sanction against his License. Samuel F. Bosco, M.D., Chairperson, Peter Kane, M.D. and Myra Nathan, Ph.D. served as the Hearing Committee and Administrative Law Judge James F. Horan served as the Administrative Officer. The Department of Health appeared by David W. Quist, Esq. The Respondent appeared by James C. Knox, Esq. After considering the documentary evidence and the testimony from the hearing, the Committee finds that the Respondent's conduct in California would amount to professional misconduct in New York and we vote 3-0 to place the Respondent on probation with monitoring under the terms that appear as the Appendices to this Determination.

## BACKGROUND

The Department brought this case pursuant to PHL § 230(10)(p), which provides for a hearing when a licensee is charged solely with violations under New York Education Law (EL) §6530(9), which addresses conduct resulting in criminal convictions or disciplinary action by another jurisdiction. The Department's Notice of Referral Proceeding and Statement of Charges (Department Exhibit 1) alleges that the Respondent violated EL § 6530(9)(d), by engaging in conduct that resulted in disciplinary action by the duly designated disciplinary body of another state for conduct that would also constitute misconduct if committed in New York. The Department charged that the Respondent's conduct in California would constitute misconduct in New York State under EL § 6530(8) for being a habitual abuser of or being dependent upon narcotics, barbiturates, amphetamines, hallucinogens or other drugs having similar effects. Pursuant to PHL § 230(10), the Department has the burden of proving its case by a preponderance of the evidence.

The Committee conducted the hearing by WebEx Videoconference on July 14, 2021. The Respondent testified on his own behalf and presented the testimony of Robert Wishnoff, Ph.D. The Department offered four documents into evidence, which the Administrative Officer received into the record:

- Department 1 – Notice of Referral Proceeding and Statement of Charges,
- Department 2 – Affidavit of Service,
- Department 3 – New York State Education Department Licensure Documents,
- Department 4 – Stipulated Surrender of License and Disciplinary Order.

The Respondent submitted two documents that the Administrative Officer received into the record

- Respondent A – Anand Pandya, M.D. Curriculum Vitae,
- Respondent B – Answer.

The Respondent and the Department each submitted pre-hearing briefs. The hearing record also included a transcript from the hearing, which a stenographic reporter prepared [Pages 1-73].

## FINDINGS OF FACT

The Committee made the following findings of fact (FF) after affording the parties an opportunity to be heard and after considering the evidence. In instances in which conflicting evidence appears in the record, the Committee considered and rejected that other evidence.

1. The Respondent received a license to practice as a Physician in New York State (No. 204191) on August 15, 1996 [Department Exhibit 3].
2. The Office of the Professions at the New York State Education Department lists the Respondent's License status as "REGISTERED" [Department Exhibit 3].
3. The Medical Board of California (California Board) issued Physician's and Surgeon's Certificate Number A 93032 to the Respondent on October 7, 2005 [Department Exhibit 4].
4. The California Board filed a First Amended Accusation against the Respondent on August 18, 2020 which charged that the Respondent with Unprofessional Conduct, Criminal Conviction of a Crime and Use of a Controlled Substance [Department Exhibit 4].
5. The Accusation stated that United States Customs Officers arrested the Respondent on September 15, 2016 at Newark International Airport after finding 18.3 grams of methamphetamine and 25 hypodermic needles concealed in a baby powder container in the Respondent's luggage, upon the Respondent's arrival on a flight from Germany [Department Exhibit 4].
6. Methamphetamine is a Schedule II Controlled Substance [Department Exhibit 4].
7. The Accusation continued that the Respondent submitted a letter explaining that during August and September 2016, the Respondent travelled outside the United States, used methamphetamine during that trip and brought methamphetamine into the United States [Department Exhibit 4].

8. In an April 17, 2017 criminal proceeding in Superior Court for Essex County New Jersey, the Respondent entered a guilty plea to Possession of a Dangerous Controlled Substance in the Third Degree, a misdemeanor [Department Exhibit 4].

9. The Superior Court ordered the Respondent into a Pre-Trial Intervention Program [Department Exhibit 4].

10. The Respondent entered into a Stipulated Surrender of License and Disciplinary Order with the California Board that became effective on January 15, 2021 [Department Exhibit 4].

11. The Respondent indicated that he read the Stipulated Surrender, discussed the Order with counsel and, having benefit of counsel, waived his legal rights, including the right to a hearing on the charges in the Accusation [Department Exhibit 4].

12. For the purpose of resolving the First Amended Accusation without the expense and uncertainty of further proceedings, the Respondent agreed that, at a hearing, the Board could establish a factual basis for the charges in the First Amended Accusation and that those charges constitute cause for discipline [Department Exhibit 4].

13. The Respondent practiced psychiatry in New York and taught at New York University Medical School after graduating from New York University Medical School and completing residencies and a fellowship in New York [Hearing Transcript page 15].

14. The Respondent eventually moved his practice to California and taught on the faculties at the University of California at Los Angeles and then at the University of Southern California, before retiring from practice in 2015 and moving back to New York [Hearing Transcript pages 16-17].

15. The Respondent's Curriculum Vitae notes that the Respondent is currently retired and is available only as a reviewer for journals and an educational speaker on rare occasions [Respondent Exhibit A].

#### HEARING COMMITTEE DETERMINATION

The Hearing Committee, by a vote of 3-0, sustains the charge that the Respondent committed professional misconduct as defined in EL § 6530(9)(d). The Respondent entered into a Stipulated Surrender of his California License and agreed that, at a hearing, the California Board could establish a factual basis for the charges in the First Amended Accusation and that those charges constitute cause for discipline. The California Board charged the Respondent with unprofessional conduct due to a criminal conviction and use of a controlled substance. The Committee finds that, if the Respondent had engaged in that conduct in New York, the conduct would constitute a violation under EL § 6530(8) for being a habitual abuser of or being dependent upon narcotics, barbiturates, amphetamines, hallucinogens or other drugs having similar effects.

The Respondent argued that the standards for professional discipline differ between New York and California, that limited use of narcotics would constitute misconduct in California, but New York would require a showing of habitual use or dependence on narcotics in order to constitute misconduct [Respondent's Pre-Hearing Brief; Hearing Transcript at page 11]. The Department's Pre-Hearing Brief argued that although EL § 6530(8) contains no definition for habitual use, the provisions on controlled substances at PHL § 3302(16) define habitual user as a person in danger of becoming dependent on a controlled substance due to repeated use.

The Respondent testified at the Direct Referral hearing that he used methamphetamine over the course of 13-14 days during a trip to Berlin in August – September 2016 [Hearing Transcript page 23]. In September 2016, the Respondent was arrested at Newark Airport in possession of 18.3 grams of methamphetamine and twenty-five hypodermic needles. The First Amended Accusation against the Respondent in California alleged that the drugs and syringes were concealed in a baby powder container [Department Hearing Exhibit 4]. We infer from the use in Berlin and the attempt to bring more methamphetamine into the United States that the Respondent was a habitual user.

The Respondent testified that his travelling companions had left the drugs and syringes in the hotel room they shared when the companions left Berlin ahead of the Respondent. The Respondent testified that he feared that someone at the hotel would find the drugs and syringes if he left that material in the hotel, so the Respondent “flipped” it into his bag [Hearing Transcript page 25]. The Committee finds that this explanation lacks credibility in that the Respondent expressed more fear over someone at the hotel finding the material rather than United States Customs finding it at the Respondent’s return to the United States. The Respondent testified that he had not hidden the methamphetamine in his luggage [Hearing Transcript page 25]. The First Amended Accusation in California, however, alleged that the Respondent had hidden the material in a baby powder container. The Respondent agreed in the Stipulated Surrender that, at a hearing, the California Board could establish a factual basis for the charges in the First Amended Accusation [Hearing Exhibit 4]. When a licensee has waived an adjudication on the merits of an out-of-state complaint by entering a stipulation of settlement, an inference is raised that the allegations against the licensee have merit, Matter of Hatfield v. Dept. of Health of the State of NY, 245 A.D.2d 703, 665 N.Y.S.2d 755 (3<sup>rd</sup> Dept. 1997); Matter of Sternberg v. Admin. Rev. Bd. For Prof. Med. Conduct, 235 A.D.2d 945, 652 N.Y.S.2d 855 (3<sup>rd</sup> Dept. 1997), lv. denied 90 N.Y.2d 809 (1997).

The finding that the Respondent engaged in professional misconduct makes the Respondent subject to the penalties in PHL § 230-a, which include license probation pursuant to PHL § 230-a (9). The Committee rejects the Department's request that the Committee revoke the Respondent's License. The Committee is struck by the Respondent's incredibly poor judgment, but we conclude that the Respondent's conduct does not rise to the level to warrant revocation. There was no proof of patient harm or risk of patient harm. The Committee does believe that this case requires probation with a toxicology monitor immediately and with a practice monitor should the Respondent ever choose to return to practicing clinical medicine.

The Respondent is in no treatment program currently and is subject to no monitoring [Hearing Transcript page 36]. The Respondent underwent an evaluation prior to the hearing with Dr. Wishnoff, a certified alcohol and substance abuse counsellor. The Committee found the evaluation of limited value as it was prepared for this hearing alone and was not part of regular treatment nor was the evaluation for an independent entity such as the Committee for Physician's Health. The Respondent passed a drug screen as part of the evaluation, but it was not a random, unannounced drug screen. Dr. Wishnoff testified that the Respondent scheduled an appointment for the evaluation and drug screen a "couple of days" before the appointment. Dr. Wishnoff also testified that he was unaware of how frequently the Respondent had received drug screens between 2016 and the present [Hearing Transcript page 65]. The Department argued that the Respondent's current condition is irrelevant [Hearing Transcript page 42], but the Department was arguing for the revocation of the Respondent's License. The Committee finds the Respondent's current condition relevant because this is the first time that a BPMC Committee has become aware of the Respondent's poor judgment.

The Committee votes 3-0 to place the Respondent on probation immediately for three years, with the main probation term requiring that the Respondent submit to toxicology monitoring. We

find this monitoring necessary because, although the Respondent lists himself as retired currently, there is no restriction on his License that would prevent the Respondent's immediate return to clinical practice. The Committee votes further to place the Respondent on probation for five years at such time as the Respondent chooses to return to clinical practice. The main condition under that probation will be practice with a monitor. We believe this additional probation is necessary due to the stress a return to clinical practice might place on the Respondent and because the Respondent has not practiced clinically since 2015. The full Probation Terms appear at Appendices I and II to this Determination. Should the Respondent return to clinical practice while still subject to toxicology monitoring, the Respondent shall serve the probations concurrently.

#### ORDER

Now, after reviewing the evidence from the hearing, the Committee renders the following Order:

1. We sustain the Specifications charging that the Respondent committed professional misconduct under the definitions at EL §§ 6530(9)(d) and 6530(8).
2. We place the Respondent's License on probation immediately for three years, pursuant to PHL § 230-a(9), under the Terms that appear at Appendix I to this Determination.

3. Should the Respondent return to the clinical practice of medicine in New York State, the Respondent shall serve five years on probation, with a practice monitor, under the terms that appear at Appendix II to this Determination.
4. This Order shall be effective upon service on the Respondent or seven days after mailing by certified mail in accordance with the requirements of PHL § 230(10)(h).
