Re: License No. P12470

Dear Dr. Djaparidze:

Enclosed is a copy of Modification Order #BPMC 03-13 of the New York State Board for Professional Medical Conduct. This modification order and any penalty provided therein goes into effect May 9, 2007.

Sincerely,

Ansel R. Marks, M.D., J.D.  
Executive Secretary  
Board for Professional Medical Conduct

NEW YORK STATE DEPARTMENT OF HEALTH  
STATE BOARD FOR PROFESSIONAL MEDICAL CONDUCT

---

IN THE MATTER

MODIFICATION

OF

OF

GOULBAT DJAPARIDZE, MD

CONSENT ORDER

---

This matter was brought to the New York State Board for Professional Medical Conduct for decision at the request of Goulbat Djaparidze, MD, (Licensee), an unlicensed resident. On or about October 13, 1999, Licensee was issued a limited permit, P12470. This limited permit expired on or about October 13, 2001. Licensee entered into Consent Order BPMC No. 03-13, effective January 14, 2003. The Order precludes the issuance of any license or registration to practice medicine in New York State until a Committee of the Board for Professional Medical Conduct issues a modification Order. The purpose of the proceeding was to determine whether the limitation should be stayed, upon the satisfaction of a Committee of the Board for Professional Medical Conduct that Licensee, among other things, has successfully completed a course of therapy prescribed by the Board which includes a determination that Licensee is no longer incapacitated for active practice and that he is both fit and competent to practice medicine.

A meeting of the Committee was held in the above-entitled proceeding on January 30, 2007. Licensee appeared with his attorney, Wilfred Friedman, Esquire, before a Committee of the State Board for Professional Medical Conduct consisting of Walter M. Farkas, M.D., Chair, Adel R. Abadir, M.D., and Randolph H. Manning, Ph.D. The Committee determined, by unanimous decision, after careful consideration of all evidence submitted to them prior to the meeting and the testimony provided, that the limitation shall be stayed, and that the Licensee shall be allowed to practice medicine subject to the following conditions.

THEREFORE, IT IS HEREBY ORDERED THAT:

Licensee's return to practice is subject to the following conditions. Unless otherwise indicated, these terms of probation shall remain in effect for a period of probation lasting **seven (7) years**.

**Licensee may not commence the practice of medicine in New York State until all proposed monitors have been approved in writing by the Director of OPMC.**

1. **The Licensee shall not engage in the independent practice of medicine until he completes a residency-training program.** Licensee shall provide a copy of this Order to the Director of any residency-training program in which he participates.

2. The period of probation, including some or all of the terms and conditions described herein, may be tolled, at the discretion of the Director of the Office of Professional Medical Conduct (OPMC), during periods in which the Licensee is not engaged in the active practice of medicine in New York State. Licensee shall notify the Director, in writing, if he is not currently engaged in or intends to leave the active practice of medicine in New York State for a period of thirty (30) consecutive days or more. Licensee shall submit written notification to the Director prior to any change in that status. Licensee shall not resume the practice of medicine in New York State without the approval of the Director and shall comply with any requests from the Director necessary for such approval, including a re-appearance before a Committee of the Board. Upon the Director's approval, the period of probation shall resume and any terms of probation, which were not fulfilled, shall be fulfilled upon Licensee's return to practice in New York State.

3. Licensee shall remain free from alcohol and all other mood altering substances other

than those prescribed for Licensee's treatment by a licensed physician aware of Licensee's history.

**Licensee shall not self-prescribe any medications.**

4. Licensee shall comply with a supervised therapeutic regimen of Naltrexone for a period of no less than two years pursuant to a physician's directions and approved by the Director of OPMC. Licensee shall be tested on a random basis, but no less than bimonthly, to confirm compliance with the administration of Naltrexone.

5. Licensee shall be monitored by a qualified health care professional (Sobriety Monitor) proposed by Licensee and approved in writing by the Director of the OPMC. The Sobriety Monitor is to be familiar with Licensee's history of chemical dependency, depression and with the terms of this Order. Licensee shall submit the name of a proposed successor within seven (7) days of learning that the approved Sobriety Monitor is no longer willing or able to serve.

a. The Sobriety Monitor shall oversee Licensee's compliance with the terms and conditions imposed herein and shall cause to be performed forensically valid, random, supervised, unannounced tests for the presence of alcohol and other drugs in Licensee. Specimens must be specifically tested as set forth for Licensee's drug(s) of choice. **Licensee shall be screened no less than eight (8) times each month during the first year of practice, with four (4) random specimens specifically tested for the presence of Fentanyl each month.** The Licensee shall be called on a seven day a week basis and drug screens must include weekend and evening collections. After the first year of practice, if Licensee has been fully compliant with this Order, a request for a reduction in the number of screens may be submitted to OPMC for approval. **Additionally, The Licensee shall be required, upon request, to submit hair specimens for testing four (4) times during the first year of practice, and thereafter, no less than two (2) times each year.**

- b. The Sobriety Monitor shall notify OPMC immediately if Licensee refuses such a test.
  - c. The Sobriety Monitor shall notify OPMC immediately if such a test reveals, or if the monitor otherwise learns, the Licensee is not alcohol/drug free.
  - d. Every three (3) months, the Sobriety Monitor shall submit to OPMC a report certifying compliance with each of the terms of this Order or describing in detail any failure to comply. The quarterly reports shall include forensically valid results of all tests for the presence of alcohol and other drugs performed during that quarter.
  - e. Licensee shall report to the Sobriety Monitor **within four (4) hours** of being contacted by the Sobriety Monitor to submit a hair, blood, breath, oral fluid and/or urine specimen.
  - f. Licensee shall avoid all substances that may cause positive results such as poppy seeds/mouthwash/cough medication/herbal teas. **Any positive result will be considered a violation of this Order.**
  - g. If Licensee is to be unavailable for sobriety monitoring for a period of 15 days or more, Licensee shall notify his Sobriety Monitor and seek and receive prior written permission from the Director of OPMC subject to any additional terms and conditions required by the OPMC.
6. Licensee shall be supervised in his practice by a licensed physician (Practice Supervisor) proposed by Licensee and approved in writing by the Director of OPMC. The Practice Supervisor is to be familiar with Licensee's history of chemical dependency, depression and with the terms of this Order.

- a. The Practice Supervisor shall establish the capability of immediately obtaining a drug screen on Licensee in response to any complaint or observation that indicates Licensee may not be drug or alcohol free
  - b. The Practice Supervisor shall oversee the Licensee's prescribing, administering, dispensing, ordering, inventory and wasting of controlled substances.
  - c. The Practice Supervisor shall immediately report any suspected or actual impairment, inappropriate behavior, questionable medical practice or possible misconduct to OPMC.
  - d. The Practice Supervisor shall notify OPMC immediately if Licensee violates any term(s) of this Order.
  - e. The Practice Supervisor shall submit a report to OPMC every three (3) months regarding the quality of Licensee's practice, any unexplained absences from work, and Licensee's compliance or failure to comply with each condition described within this Order.
7. Licensee shall continue in individual treatment with a psychiatrist (Therapist) proposed by Licensee and approved in writing by the Director of OPMC. The Therapist is to be familiar with Licensee's history of chemical dependency, depression and the terms of this Order. OPMC, at its discretion, may provide information or documentation from its investigative files concerning Licensee to Licensee's Therapist. Licensee shall continue in individual therapy for the duration of the Order, at a frequency of therapy visits to be decided by the Therapist, with ongoing evaluation to address the need for any psychotherapeutic medications. Licensee shall submit the name of a proposed successor within seven (7) days of becoming aware that an approved Therapist is no longer willing or able to serve in that capacity.

- a. The Therapist shall submit reports to OPMC every three (3) months certifying compliance with treatment by Licensee and describing in detail any failure to comply.
- b. The Therapist shall report immediately to OPMC any significant pattern of absences or failure to comply with recommended treatment by Licensee, including the unauthorized discontinuation of any prescribed medications.

8. The Director of OPMC shall reserve the authority to direct the Licensee to undergo an independent evaluation by a practitioner or facility approved by the Director of OPMC that specializes in alcohol/chemical dependency issues and/or mental illness. The Licensee shall provide the evaluator with a copy of this Order and execute authorizations to provide the evaluator with copies of all previous treatment records. The Licensee shall execute authorizations, and keep said authorizations active, allowing the evaluator to obtain collateral information and communicate with OPMC. Reports of such evaluations shall be submitted directly to the Director of OPMC. Licensee shall follow treatment recommendations made by the evaluator. If the evaluator determines that the Licensee is not fit to practice, the Licensee shall immediately cease practice until it is determined he is fit to resume practice. Failure to comply with the treatment recommendations will be considered a violation of this Order.

9. Licensee shall continue participation in self-help fellowship (e.g., AA, Caduceus, other). Licensee shall maintain an ongoing relationship with a sponsor.

10. Licensee shall not treat or prescribe medications for any family member or friend.

11. Licensee shall continue enrollment in the Committee for Physicians' Health (CPH) and shall engage in a contract with CPH that fully describes the terms, conditions and duration of a recovery

program. Licensee shall fully comply with the contract.

a. Licensee shall provide a written authorization for CPH to provide the Director of OPMC with any/all information or documentation requested by OPMC to determine whether Licensee is in compliance with the contract and with this Order, including full access to all records maintained by CPH with respect to Licensee.

b. Licensee shall cause CPH to report to OPMC if Licensee refuses to comply with the contract, refuses to submit to treatment or if his impairment is not substantially alleviated by treatment. CPH shall report immediately to OPMC if Licensee is regarded at any time to be an imminent danger to the public.

12. Licensee shall inform all physicians or other health care practitioners from whom Licensee seeks treatment of Licensee's history of chemical dependency and depression. Should Licensee be prescribed any controlled or mood-altering substances, Licensee shall notify the Sobriety Monitor and the Director of OPMC before such medications are administered.

13. The Director of OPMC shall reserve the right to review Licensee's professional performance. This review may include, but shall not be limited to, a review of office records, patient records and/or hospital charts (inclusive of electronic records), and interviews with or periodic visits with Licensee and staff at his practice locations or OPMC offices.

14. Licensee shall maintain legible and complete medical records that accurately reflect the evaluation and treatment of patients. The medical records shall contain all information required by State rules and regulations regarding controlled substances.

15. Licensee shall conduct himself in all ways in a manner befitting his professional status and shall conform fully to the moral and professional standards of conduct and obligations imposed by law and by his profession.

16. Licensee shall provide the Director of OPMC with the following information and shall ensure that such information is kept current: a full description of Licensee's employment and practice; all professional and residential addresses and telephone numbers within and outside New York State; all professional licenses held and applied for; and all investigations, arrests, charges, convictions or disciplinary actions by any local, state or federal agency, institution or facility, within thirty (30) days of each action.

17. Licensee shall fully cooperate with and respond in a timely manner to requests from OPMC to provide written periodic verification of Licensee's compliance with the terms of this Order. Licensee shall personally meet with a person designated by the Director of OPMC as requested by the Director.

18. Licensee shall fully cooperate in every respect with OPMC in its administration and enforcement of this Order and in its investigation of all matters regarding Licensee. Licensee shall respond promptly and provide any and all requested documents and information within Licensee's control upon the direction of OPMC.

19. Should Licensee practice medicine in another state, he shall provide written authorizations for the State Medical Board and/or the Physician Health Program to provide the Director of OPMC with any/all information or documentation as requested by OPMC.

20. Licensee shall comply with all terms, conditions, restrictions and limitations to which he is subject pursuant to the Order and shall assume and bear all costs related to compliance of the Order. Upon receipt of evidence of noncompliance with, or any violation of these terms, the Director of OPMC and/or the Board may initiate a violation of probation proceeding and/or any such other proceeding against Licensee as may be authorized pursuant to the law.

As Licensee agreed in the Consent Order, failure to comply with any of the conditions described above may result in disciplinary action.

This Order shall be effective upon issuance.

Dated: April 26, 2007
